Neste primeiro número de 2013, informamos aos nossos prezados autores e leitores que a recente avaliação da Qualis Capes elevou a JISTEM para o nível B1 na área de Administração, Contabilidade e Turismo. Além dessa área, a JISTEM foi avaliada por outras sete áreas do conhecimento, o que comprova a sua interdisciplinaridade.

A JISTEM tem mantido sua evolução em qualidade e visibilidade nacional e internacional. A maior parte dos artigos de 2011 foi publicada em inglês e, com isso, a JISTEM está sendo cada vez mais acessada por pesquisadores e estudantes de diversas partes do mundo.

Aproveitamos esta oportunidade para informar que o 10th CONTECSI - *International Conference on Information Systems and Technology Management* ocorrerá de 12 a 14 de junho de 2013, na FEA USP, São Paulo, Brasil. Cerca de 200 trabalhos serão apresentados nas seguintes categorias: sessão paralela, fórum de pesquisa, comunicação de pesquisa, consórcio doutoral e, pela segunda vez, ocorrerá o Master Colloquium. Também está confirmada a vinda do Prof. Dr. Niels Bjørn-Andersen, Ph.D., Professor of Information Systems da Copenhagen Business School, Dinamarca, ex-presidente da AIS (Association for Information Systems). Desde o primeiro CONTECSI, temos tido a honra de receber o presidente da AIS para abrir a conferência. Os autores dos melhores trabalhos serão convidados a submetê-los em “fast-track” à JISTEM como ocorre anualmente. Para mais informações consulte o site www.tecsi.fea.usp.br/eventos/contecsi. Neste CONTECSI, ocorrerá também 27th WCRAS, o XBRL, etc.

Neste primeiro número de 2013, publicamos artigos de alto nível sobre *E-Mail Usage, Competitive Advantage, Professionals' Perceptions Related to the Influence of Information Technology, Strategic Partnership Formation in IT Offshore Outsourcing, Decision-Making Process to Purchase from Online Supermarkets, Radio Frequency Identification System, Forensic accounting and corporate fraud, End-user satisfaction, Conception And Development of a System and Technological Innovation*.

Convidamos a todos a acessarem estes artigos e lhes desejamos uma excelente leitura.

In this first issue of 2013, we would like to inform our highly-esteemed authors and readers that a recent evaluation by Qualis Capes has raised JISTEM to B1 level in the field of Business Administration, Accounting and Tourism. In addition to this field, JISTEM was evaluated on seven other fields of knowledge, which proves its interdisciplinary nature.

JISTEM has maintained its development regarding its quality and its national and international exposure. Most of the 2011 papers were published in English; therefore, JISTEM has been increasingly accessed by researchers and students from many parts of the world.

We also would like to inform that the 10th CONTECSI- International Conference on Information Systems and Technology Management – will be held between June 12th and 14th, 2013, at FEA USP, São Paulo, Brazil. Nearly 200 papers will be presented in the following categories: side session, research forum, research communication, doctoral consortium, and, for the second time, the Master Colloquium will take place. The presence of Professor Niels Bjørn-Andersen, Ph.D., Professor of Information Systems at the Copenhagen Business School, Denmark, former President of AIS (Association for Information Systems). Since the first CONTECSI, we have had the honor of welcoming the President of AIS to open the conference. The authors of the best papers will be invited to submit them by “fast-track” to JISTEM, similarly to the previous years. For further information, log on to www.tecsi.fea.usp.br/eventos/contecsi. At this CONTECSI, the 27th WCRAS, and the XBRL, among others will also be held.

In this first issue of 2013, we have published high-level papers such as *E-Mail Usage, Competitive Advantage, Professionals' Perceptions Related to the Influence of Information Technology, Strategic Partnership Formation in IT Offshore Outsourcing, Decision-Making Process to Purchase from Online Supermarkets, Radio Frequency Identification System, Forensic accounting and corporate fraud, End-user satisfaction, Conception And Development of a System and Technological Innovation.*

We invite you all to read these papers and wish you good reading.
